

DECISION

Complaint No. : POS/3980/2021/33/DG-II

Name and address of the complainant : Mr. Abdullah,
R/O 19/2, Baloch Para Road Azizabad, Block-2 F.B
Area, Karachi.

Name of the Agency Complained against : Karachi Water and Sewerage Corporation

Name & Designation of Investigating Officer : Dr. Imtiaz Bhatti
Director General-II

Vetted by :

Subject : **COMPLAINT ABOUT NON-SUPPLY OF WATER TO THE AREA OF THE COMPLAINANT DESPITE REPEATED VISITS TO CONCERNED OFFICERS.**

1. COMPLAINT:

Mr. Abdullah filed a complaint received on 10-08-2021 regarding non-supply of water to the residential area of the complainant. The Complainant, therefore, solicited intervention.

2. PROCEEDINGS:

- The report was called from the KW&SC on 27-08-2021. The agency submitted a report on 29-09-2021 stating that it had attempted twice to resolve the complainant's issue by clearing any blockage in the branch line. It was further stated that the complainant resides in Baloch Para, which is a tail-end area of Block-02. The main reason for not receiving water was due to low pressure, and no technical issue was found.
- On 20-01-2022, the agency submitted report stating that the complainant is receiving adequate quantity of water. It was also mentioned that whenever KW&SC staff visit his residence for inspection, he does not meet them. The agency also produced videos as evidence of adequate supply of water before Investigating Officer.
- The agency, on 24-05-2023 & 24-12-2023 submitted reports confirming that the complainant is receiving water as per schedule. The matter was continuously pursued by this office. On 02-07-2024, the agency submitted another report stating that the complainant is not cooperating with them, as he switches off his phone and does not meet them whenever staff visit his home for checking.
- The Investigation Officer recorded on the file that the complainant's demand for an alternative connection is not possible. Later, the Investigation Officer recorded that the water supply was provided regularly through pumping and partially through gravity, but the complainant always avoided the agency's inspection visits.

3. FINDINGS:

The record reveals that KW&SC repeatedly attended to the complainant's issue from 2021 to 2024. The agency made several attempts to clear blockages and confirmed that the complainant resided at the tail-end area of Block-02 (Baloch Para) and faced low pressure rather than any technical fault. Despite repeated visits, the complainant remained uncooperative, often not opening the door or responding to calls. Reports and video evidence were submitted showing that water supply is being provided as per schedule through pumping and gravity. The Investigating Officer noted that the request for an alternative connection is not feasible. Hence, the matter stands resolved as per the report from the concerned agency.

4. DECISION:

In view of the above, the complaint is redressed as per report of the agency and disposed of accordingly.

Given under my hand and seal of office
