: Advisor-K

Subject : **ALLEGED NON-SUPPLY OF PIPED WATER TO
AL-HYDER AND SADAT SOCIETY, NATHA KHAN
GOTH SINCE DECEMBER 2023.**

COMPLAINT

Mr. Muhammad Qasim submitted a complaint against Karachi Water & Sewerage Corporation (KW&SC), alleging non-supply of piped water since December 2023 despite regular payment of water bills.

PROCEEDINGS

2. The matter was referred to the Executive Engineer (Water), Shah Faisal Town, KW&SC, for a report. In response, the Executive Engineer, vide letter dated 09.09.2025, reported that the non-supply of water to the complainant's area was due to load-shedding during the scheduled water supply hours. He stated that water is supplied to Al-Hyder and Sadat Society between 12:30 PM and 03:00 PM on alternate days, whereas K-Electric observes load-shedding from 01:00 PM to 02:30 PM, causing the pumping station to remain non-functional during most of the supply period. The Executive Engineer added that he has already taken up the issue with both the Bulk Department and K-Electric, but no action has yet been taken.

FINDINGS

3. The report submitted by the Executive Engineer indicates that the prolonged non-supply of piped water in Al-Hyder and Sadat Society, Natha Khan Goth, is the result of overlapping water supply hours with the power outage schedule, which disrupts pumping operations and prevents water from reaching the affected localities. Although the matter has been brought to the notice of both the Bulk Department and K-Electric, no remedial action has been taken so far, resulting in continued hardship to the residents who have been paying their water charges regularly. The situation reflects inadequate coordination between KW&SC and K-Electric in ensuring uninterrupted power supply during the designated water supply hours, which is essential to maintain consistent and equitable water distribution to consumers.

DECISION

4.

In view of the above and in exercise of powers vested in me under Section 11 of the Establishment of the Office of Ombudsman for the Province of Sindh Act, 1991, *do hereby direct the Managing Director / C.E.O KW&SC to take up the matter with K-Electric at an appropriate level to ensure that electricity supply to the concerned pumping station remains uninterrupted during the water supply hours, so that normal water distribution can be restored to the affected localities. He is further advised to review and, if necessary, reschedule the existing water supply timings in consultation with K-Electric, keeping in view the load-shedding schedule, to avoid recurrence of such disruption in the future. A compliance report shall be submitted to this office within 30 days for perusal.*

Given under my hand and seal of office.
