

DECISION

Complaint No. : POS/5712/2024/62/DG-II

Name and address of the complainant : Mr. Rizwan Ali,
R/O House No. L-397, Block-1, Shireen Jinnah Colony, Clifton, Karachi.

Name of the Agency Complained against : Karachi Water and Sewerage Corporation

Name & Designation of Investigating Officer : Dr. Imtiaz Bhatti
Director General-II

Vetted by :

Subject : **COMPLAINT REGARDING ALLEGED SUPPLY OF CONTAMINATED WATER IN AREA OF THE COMPLAINANT. REQUEST FOR INTERVENTION.**

COMPLAINT:

Mr. Rizwan Ali filed an online complaint on 03-12-2024, alleging that sewage is getting mixed up with the drinking water supply in his area, Shireen Jinnah Colony, Clifton, Karachi, causing hardship to the residents and posing serious public health risks. He sought the intervention of the Provincial Ombudsman Sindh for redressal of his grievance.

PROCEEDINGS:

The report was called from the Agency. In response, the Executive Engineer (W), Clifton, District South-B, Karachi Water & Sewerage Corporation, reported that the requested extension of a 4-inch water pipeline cannot presently be carried out due to lack of funds and will be considered once the annual budget is available. He further stated that leakage repairs and routine maintenance have already been completed, with additional works ongoing. The Agency also highlighted that billing compliance in Shireen Jinnah Colony is extremely low, with about 95% of residents defaulting on their water bills, which limits the feasibility of service improvement. The XEN further informed that an official estimate for the required work was prepared and submitted for approval, and the work would commence upon its approval. After that no information was received from the agency regarding progress, despite issuance of two reminders from this office vide letters dated 03.11.2025 and 25.11.2025.

FINDINGS:

In view of the foregoing, it is established that the complainant's grievance regarding the supply of contaminated water in Shireen Jinnah Colony is genuine. The Agency has carried out some maintenance and repair works; however, the extension of the 4-inch water pipeline has not been executed due to lack of funds.

(2)

The Agency further reported very low billing compliance in the area, with approximately 95% of residents in default, which has adversely affected service improvement. But this does not give the agency a pretext to supply contaminated water to citizens and jeopardize their health. After the Executive Engineer (W), KW&SC submitted his report on 12-06-2025, this Office received no further response from the agency despite subsequent two reminders, resulting in avoidable delay and lack of progress in the matter. In these circumstances, the complainant's grievance is found to be justified, warranting decision of the case with appropriate directions to the Agency.

DECISION:

In exercise of the powers vested in me under Section 11 of the Establishment of the Office of Ombudsman for the Province of Sindh Act, 1991 (amended up to date), I hereby direct the Managing Director, Karachi Water & Sewerage Corporation, to ensure that the requested extension of the 4-inch water pipeline in Shireen Jinnah Colony is executed without further delay, and that all necessary maintenance and contamination-control measures are carried out promptly. The Agency is further directed to take immediate steps to improve billing compliance in the area and to submit a comprehensive progress report as to the current number of bills issued to the residences in the area, their total amount, and the total amount recovered month-wise in 2025. He should also provide a clear plan for billing and recovery for the area in 2026. His compliance report should reach this office on or before March 31, 2026.

Given under my hand and seal of the office.
